Using a working set limited to 1200 pages and 683 pages of data storage (excluding image)

Total number object records read (both passes): 433  
 of which 176 were in libraries and 33 were DEBUG data records containing 2192 bytes

Number of modules extracted explicitly = 10  
 with 0 extracted to resolve undefined symbols

0 library searches were for symbols not in the library searched

A total of 5 global symbol table records was written
